Project title: Better Efficiency for Industrial Sewage Treatment

Number of project implementation agreement: #R054

Registration number: 3315/2017

Project completed during the period 01.11.2018. - 22.11.2018.:

From 20 to 22 of November 2018 scientists from Water Research Laboratory Kristina Tihomirova, Sandis Dejus and Tālis Juhna participated in the project BEST partner meeting that was held in Toila, Estonia.

Sandis Dejus presented the progress of WP2 regards the assessment of the current situation in the field of industrial wastewater management which is led by the RTU.

During the second day, our team members had a great opportunity to participate in a workshop on hazardous substances, and also to visit industrial wastewater treatment plants at factories in nearest municipalities where wastewater with high loads of hazardous substances is treated.

Next project meeting will be held in Riga!
