

**Project title:** Fostering Innovation by Sharing and Learning Best International Practice

**Number of project implementation agreement:** EEA-GRANT-204-4534

**Registration number:** 4534

**Project completed during the period 01.05.2022. - 30.04.2024.:**

In May 2022, 14 young researchers and teaching staff from the Riga Technical University (RTU) Faculty of Engineering Economics and Management MBA program "Innovations and Entrepreneurship" and other RTU colleagues will gain knowledge about the best international practices in Norway by participating in academic studies, studying the relationship between the industry and the academic environment, learning the work climate and environment for technology-driven and internationally oriented start-ups and established companies.

On a study trip to Norway, RTU representatives went to the research and innovation project "Learning international practice, knowledge interaction for the promotion of innovation" (No.EEA-GRANT-204-4534), which was created thanks to EEA funding.
