Accenture Riga Delivery Centre

Java Summer Training School

Accenture is a global company of technology specialists that focuses on application development, sysadmin work and software maintenance. We provide practical programming and technology implementation for business.

What we offer?

We will arrange a "Java Summer Training school" in July, 2009. Java Summer training school is an intensive 4 week course with a mixture of lectures, self study and hands-on practice.

By attending the course, you will get programming skills in areas of:

- HTML
- J2EE Web Technologies
- Enterprise Java Beans
- J2EE Platform Services

How?

With Good understanding of English language, by graduating B.Sc. or M.Sc.studies in Computer Science or related Engineering field, with true Enthusiasm and Willingness to put a step towards becoming an field Expert.

The only thing we ask from you is that you devote your time and best energy to develop skills in java. If you are successful in the school, we will offer you a programmer trainee position.

Contact us!

Send your application and CV in English to elina.berzina@accenture.com by 20.06.2009 with the reference "Java Training School".
Take your chance!
